Attached is a draft definition for an "Ecosystem Water Quality Parameter of Concern". Please review the definition and fax your comments/suggestions to me by end of day, Tuesday, September 24. A special thanks to Judy Heath (DWR) for composing the majority of this definition.

A conference call is being arranged for Thursday, September 26, at 1:00 PM to complete the benefits/constraints for the remainder of the CALFED water quality actions. Please reserve time to participate. Details on the conference call will be faxed to you on Wednesday, September 27, along with the action benefits/constraints identified at the last ecosystem water quality meeting.

Please note that more than one person from your office may be receiving this fax.
